Projects

MazAid

Egypt's First Fintech Aggregator.

Baddel

Baddel is a bike sharing system with multiple stations where you can take a bike from any station and return it at any other station.

I was the only flutter developer among a cross functional team whose goal was to build and deliver the first e-bike sharing app in MENA.

IOS [↗](#) Android [↗](#)

Agriunion

This app digitize the market dynamics of Agricultural crops wholesale market in KSA to move the Agricultural ecosystem into the digital world.

My role was to participate in applying the new design, enhancing the code quality and building new features.

Android [↗](#)

ATC Payemnts

This app manage the transaction process between seller and buyer of Saudi E-vouchers (like: STC, Lebara, PUBG).

I was responsible for all the development activities for the main app and side-apps , for example: building new features, enhancing design of old features, deploying to app stores & custom app stores,
